

raul.my

- **TIME CONTROL:** YOU HAVE FULL CONTROL OVER THE SPEED OF THE SOLAR SYSTEM. PAUSE TIME COMPLETELY OR SPEED IT UP TO 5X TO WATCH THE PLANETS ORBIT FASTER, WITH SMOOTH ACCELERATION.
- **LIVE SPACE DATA:** SEE REAL-TIME STATS FROM THE ACTUAL UNIVERSE. THIS INCLUDES EXACTLY HOW FAR THE VOYAGER 1 PROBE IS FROM EARTH RIGHT NOW AND A LIVE COUNT OF HOW MANY HUMANS ARE CURRENTLY IN SPACE.
- **PLANETARY ALIGNMENTS:** THE SYSTEM AUTOMATICALLY WATCHES FOR "CONJUNCTIONS" - MOMENTS WHEN PLANETS PASS EACH OTHER OR LINE UP - AND COUNTS THEM AS THEY HAPPEN IN REAL-TIME.
- **TRUE-TO-LIFE PHYSICS:** EVERY PLANET MOVES CORRECTLY. FOR EXAMPLE, YOU'LL SEE VENUS SPINNING BACKWARD AND URANUS ROLLING ON ITS SIDE, JUST LIKE THEY DO IN REALITY.
- **SIMULATED 3D DEPTH:** EVEN THOUGH IT'S ON A SCREEN, PLANETS REALISTICALLY PASS BEHIND THE SUN AND POP OUT IN FRONT OF IT, CREATING A SENSE OF DEEP SPACE.
- **INTERACTIVE COMETS:** RARE COMETS (LIKE HALLEY OR HALE-BOPP) WILL OCCASIONALLY FLY THROUGH THE SYSTEM. THEY HAVE DIFFERENT VISUAL STYLES (ICE, FIRE, ETC.), AND YOU CAN CLICK TO "CAPTURE" THEM.
- **FOCUS AUDIO:** THE EXPERIENCE INCLUDES A BUILT-IN AUDIO PLAYER FEATURING "WEIGHTLESS" BY MARCONI UNION - A TRACK SCIENTIFICALLY PROVEN TO REDUCE ANXIETY - SYNCED TO A VISUALIZER.
